

Cyber Maturity in the Maritime Industry

Presenting the results of recent research conducted by AMMITEC

Cyber Security Research Overview

The questionnaire intended to assess the level of adoption of Cyber Security culture within the Maritime Industry

It was answered anonymously by 50 IT Leaders

The results are published at the AMMITEC's newsletter and social media and at

- Smart Maritime Network Newsletter
- ELNAVI
- Cyprus Shipping News
- Digital Ship Magazine

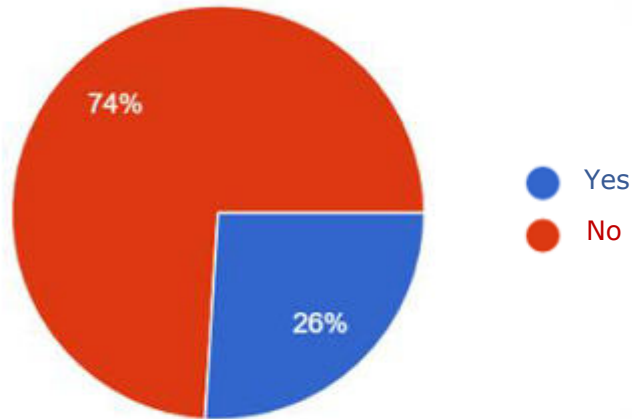

A table with numerical data is shown on a printed document. To the right of the table, a bar chart is partially visible. The table has several rows of numbers.

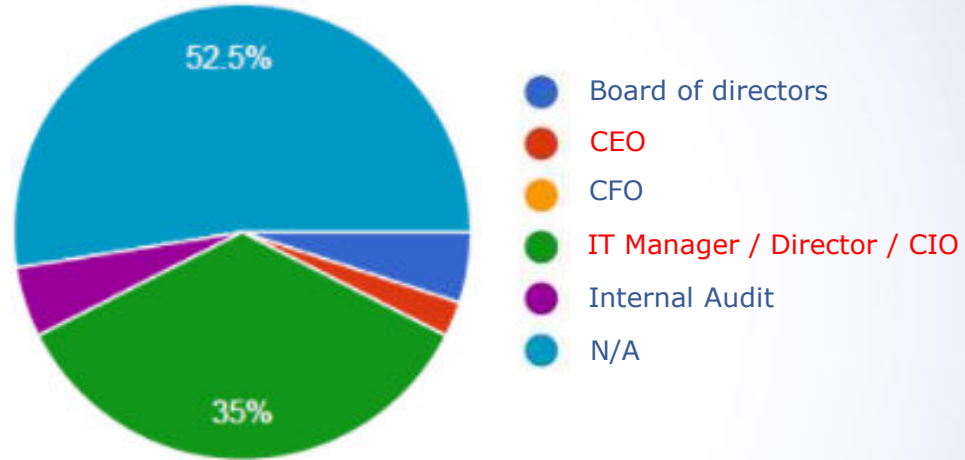

| | | |
|-------------|----------|-------------|
| 13 | 12.38 | 50 |
| 34 | 2.19 | 0.10144000 |
| 7 | 29.38 | 0.426760107 |
| 2 | 41.75 | 0.330140838 |
| 41.29411765 | 17.87875 | 47 |

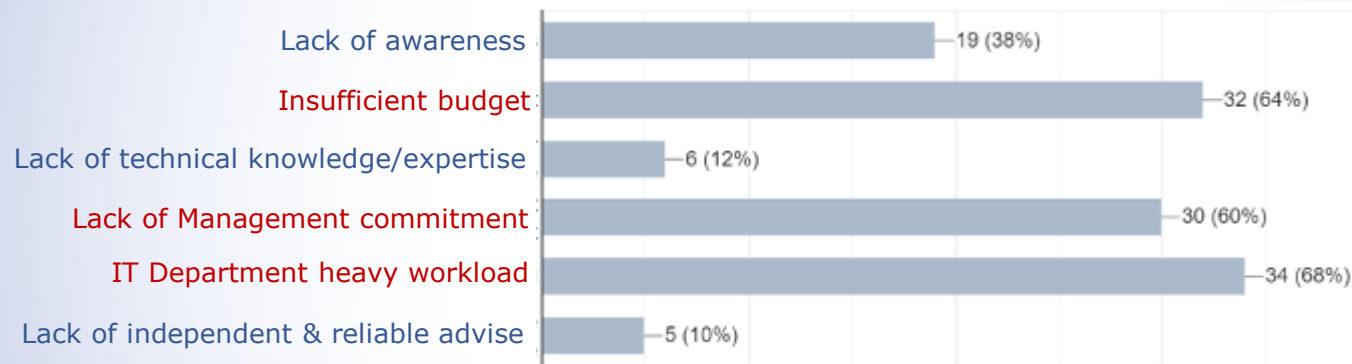

Does your organization employ a dedicated person responsible for cyber security?

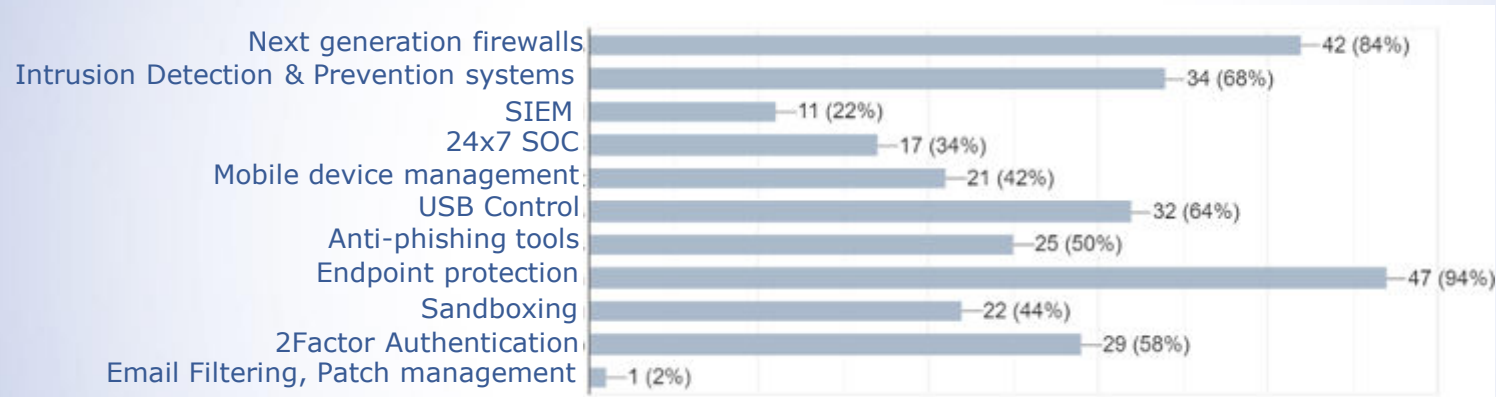

If so, who does this role report to?

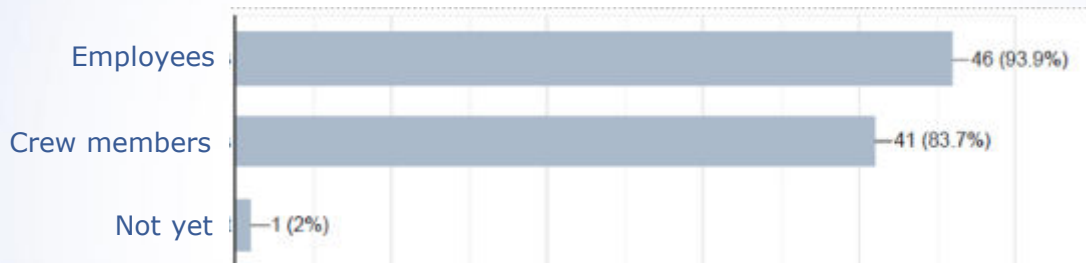

What do you think is the main obstacle in improving your organization's maturity / preparedness in Cyber Security?

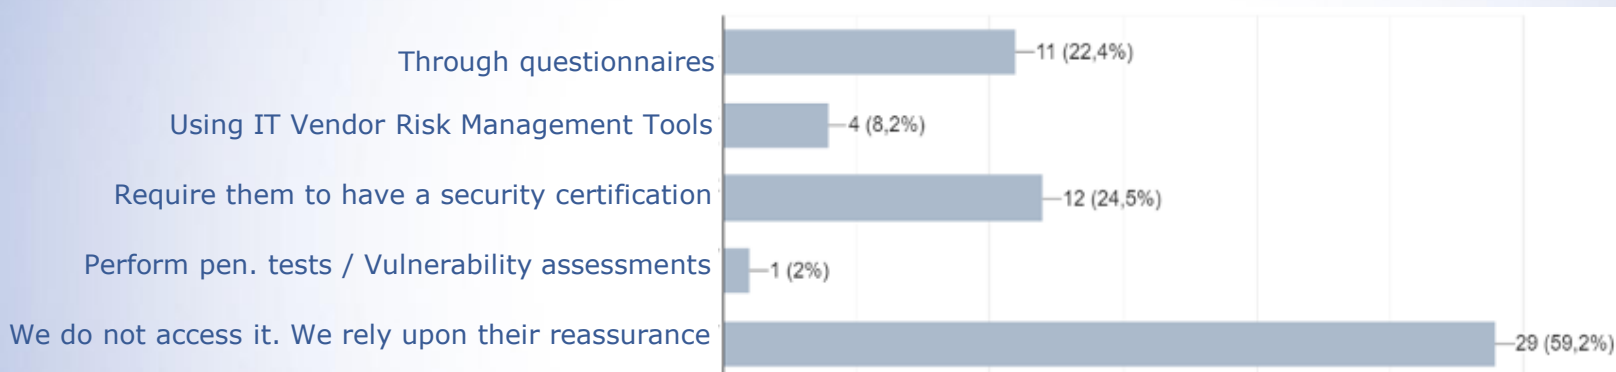

What security measures has your company implemented to ensure proper protection against cyber-attacks?

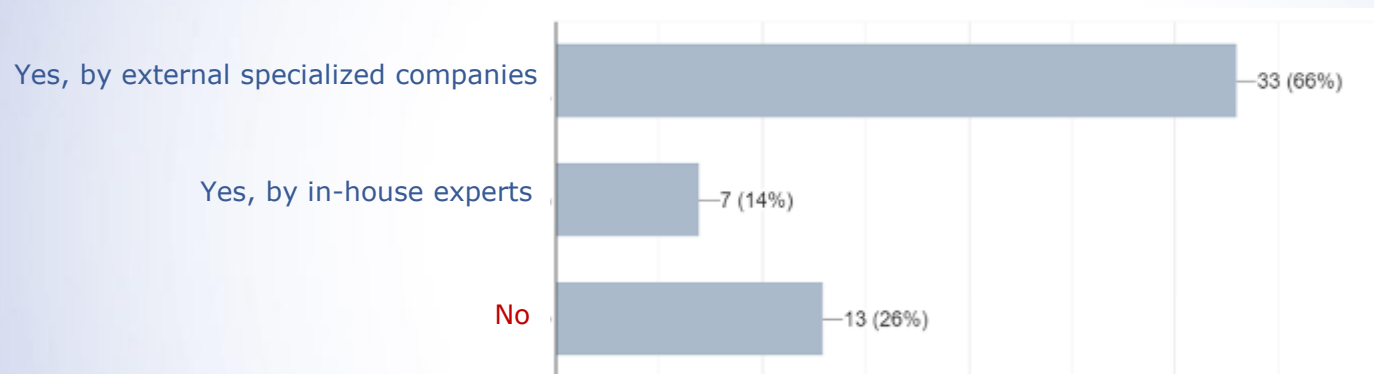

Does your organization provide cyber security training to the employees and crew-members?

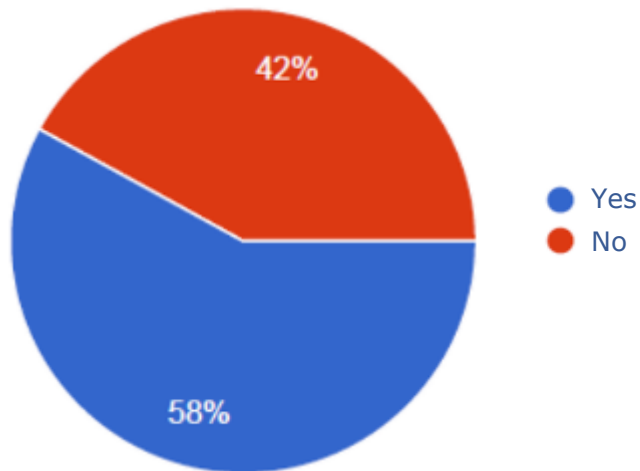

Do you assess your cyber security status on 3rd party Companies which are considered critical for your business?

Do you carry out Penetration testing?

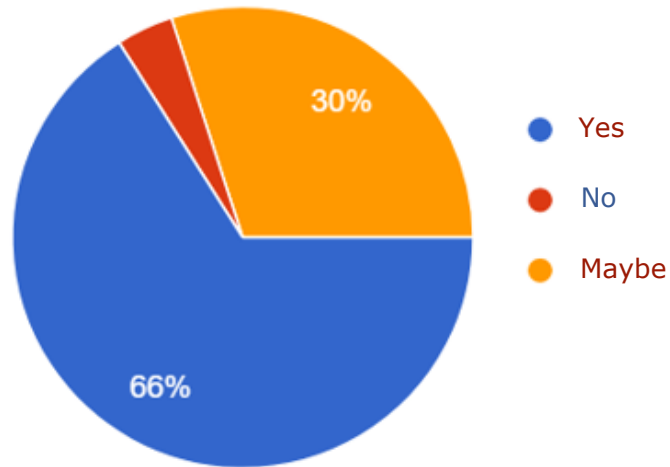

Do you carry out Vessel Cyber Security drills (as part of your SMS)?

Would you be willing to ANONYMOUSLY report a security incident to an AMMITEC controlled database?

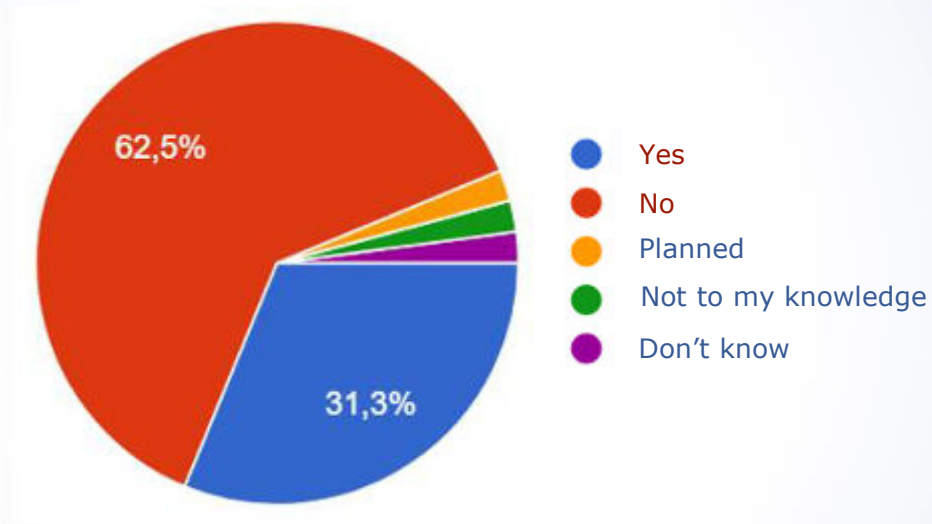

Would you be willing to ANONYMOUSLY report the key findings from external audits on Company's Vessels?

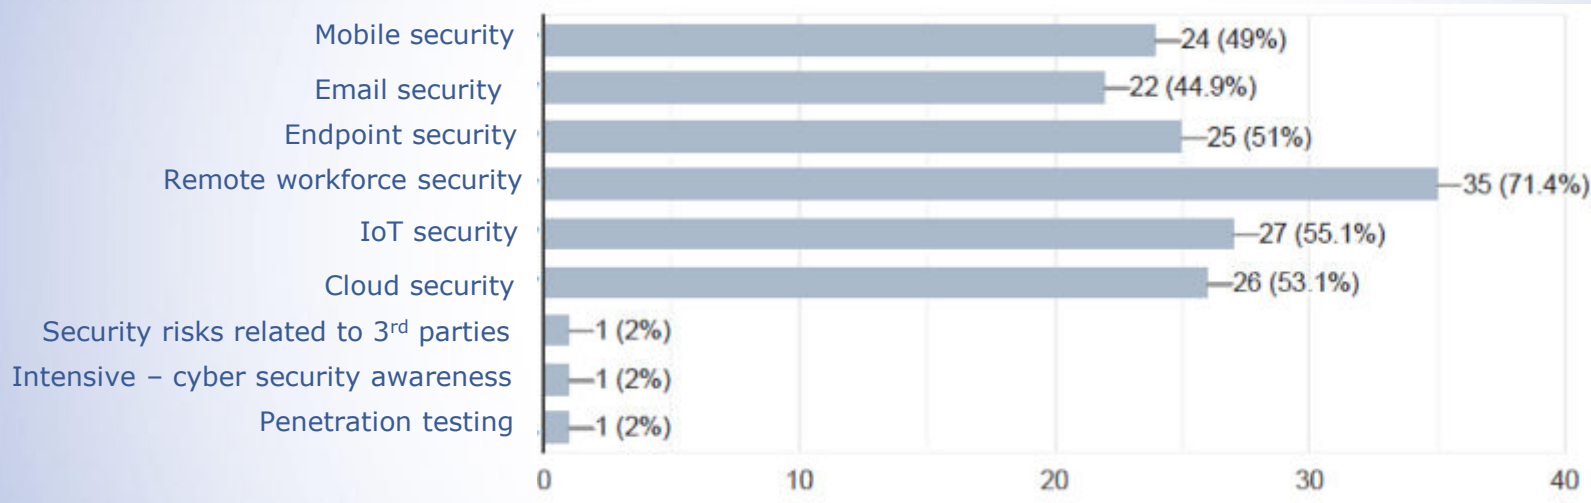

The point being to share information with other AMMITEC members

Does your company have Cyber Insurance?

In the next two years, which areas of cyber security do you think will be the highest priority for your organization?

THANK YOU
