

Benefit from migration of data and operations to the cloud

Nicolas Furgé, President Digital
28 September 2021

Let's capture market trends ...

Cloud Computing

- Satcom and IT to be more and more meshed together
- Migration of applications smoothly towards the cloud

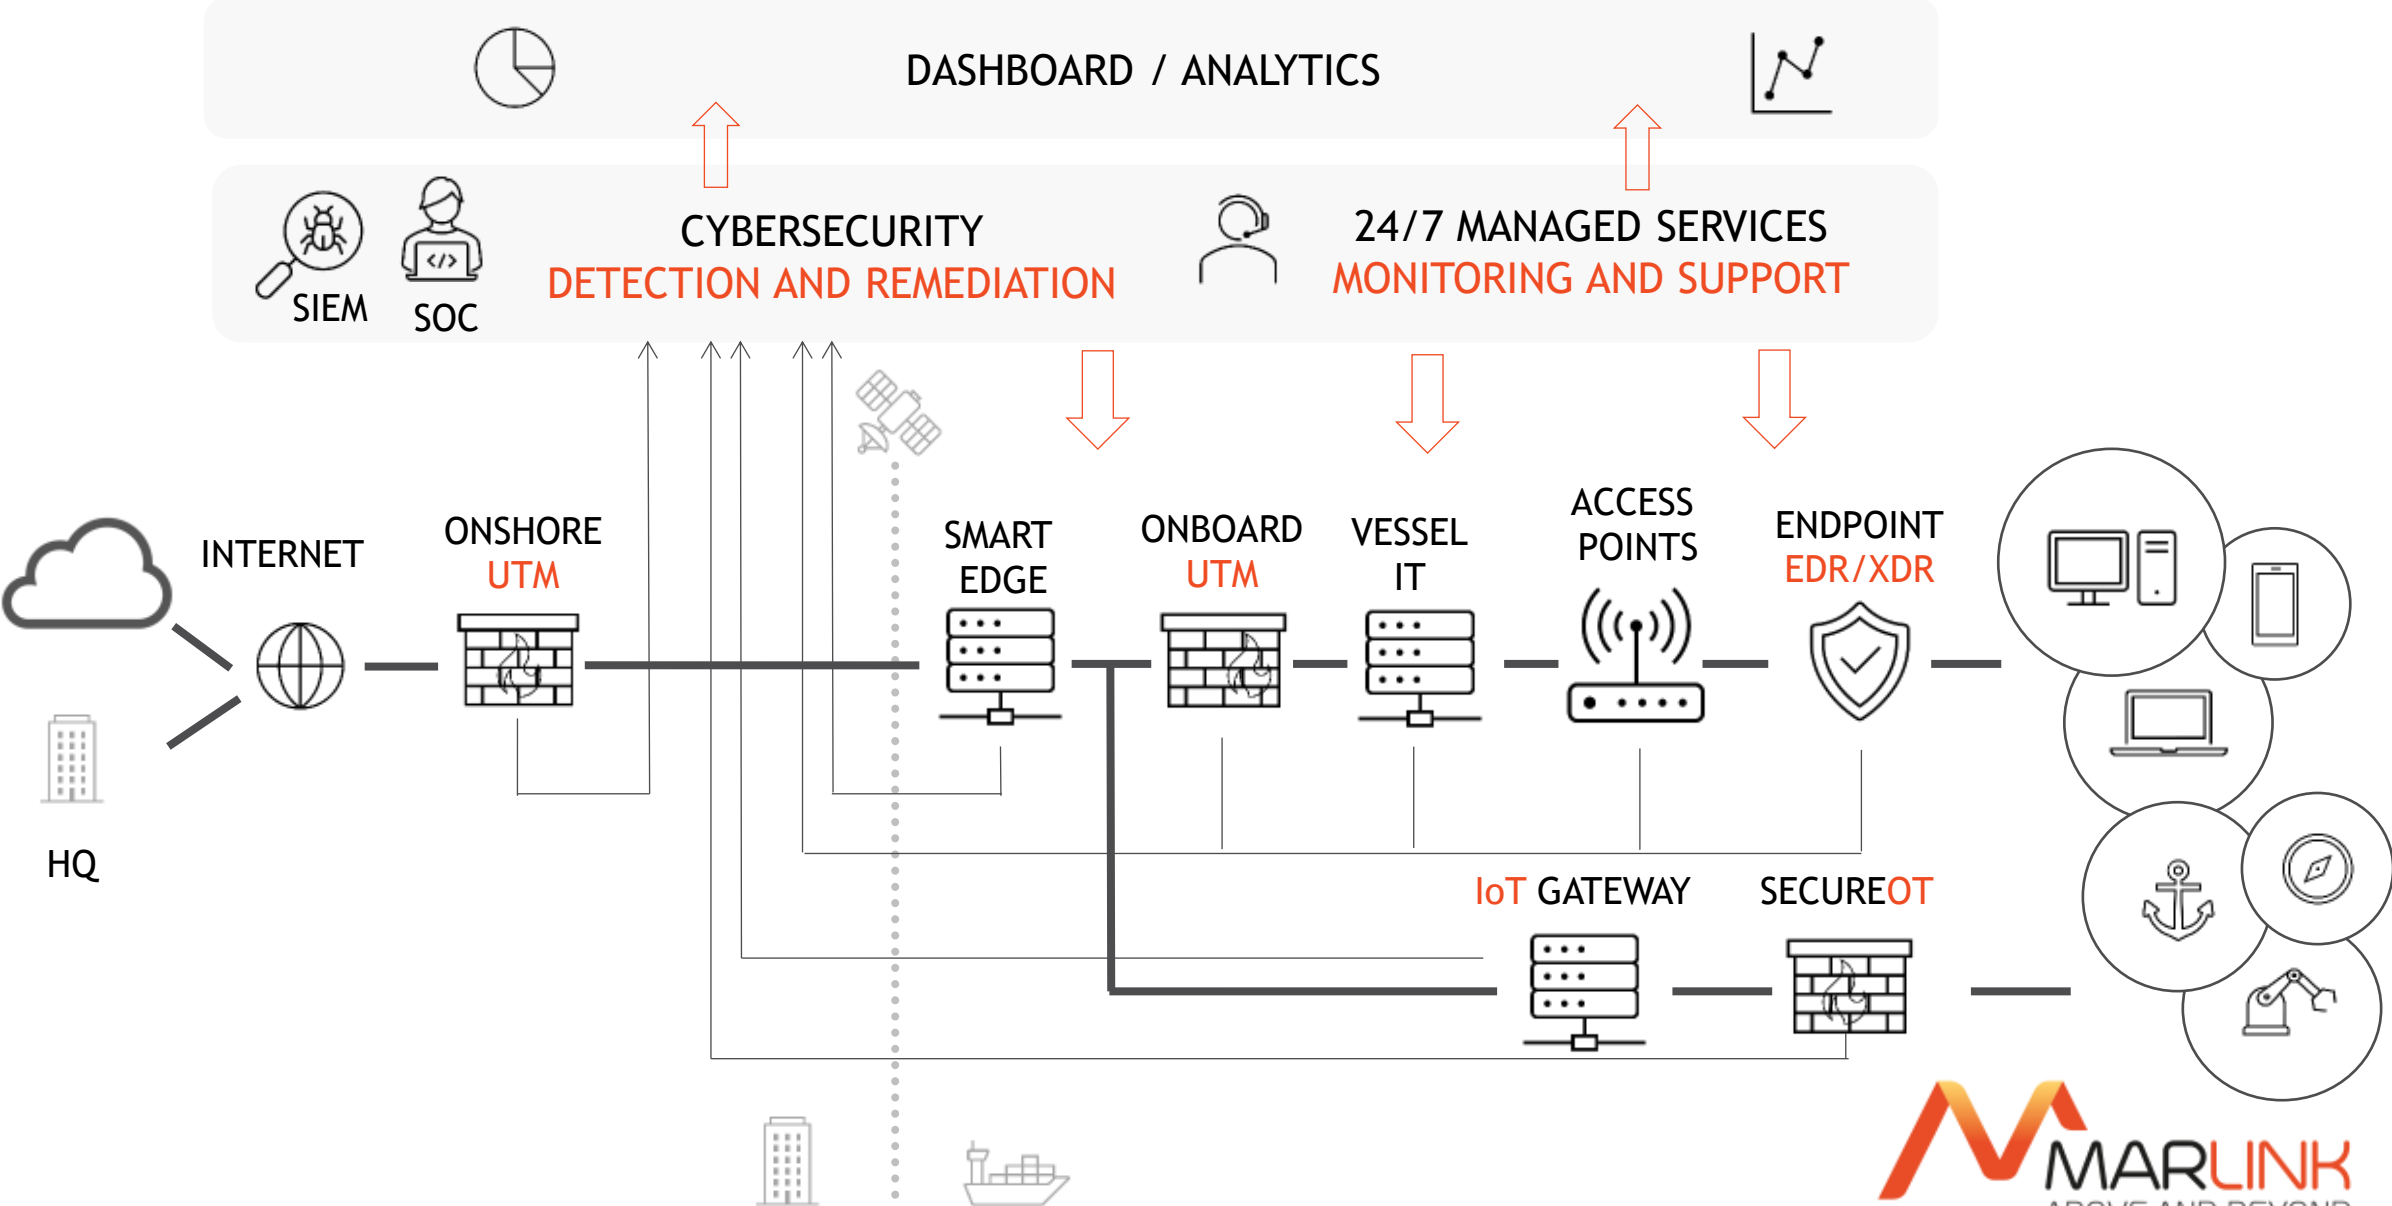

IT / OT Convergence

- IT and OT systems and processes to be more and more intertwined
- Acceleration towards 'connected industrial OT'

Cyber Security

- More exposition to cyber risks along the digital journey
- Satcom independent but maritime-designed services

... through a unified approach and vision

Thank you!
